

## **Narratives and Storytelling in Qualitative Research**

### **Notes for Participants**

Please read these notes before the training.

The course pack prepared for you includes all the material you need for the course.

There is no preparation required ahead of the course, however participants can look over the handouts for the workshop activities before the course if they wish.

*As this is an interactive course, I would be grateful if you could check that your camera and microphone are working ahead of time, so that you will be able to fully participate in discussions and group activities in the breakout rooms.*

There are two interactive activities in this course: one in which you will be asked to write a short story, and the second in which you will conduct narrative interviews in pairs. If you have any questions about the activities please do let me know.

Thank you. I look forward to meeting you on the course.

Best wishes,  
Karen
